## IT Professionals Functional & Technical

Information Technology Professionals are critical to the success of any organization and the Fusion Staffing team has more than 35 years of experience in the recruitment of top IT talent along the Front Range and across the United States. We have a large and active database of candidates and an active pipeline of top technology professionals with experience across a wide cross section.

We have established recruitment channels and an extreme depth of experience in recruiting across the following Technical disciplines:

- \* Software Development (C#, .NET, JAVA, C++)
- \* Software Test & QA
- \* Telecommunications
- \* Systems Administration
- \* Systems Analyst
- \* Network Security (CCIE etc.)
- \* Database Administration
- \* Billing Systems (CSG, Convergys AMDOCS)
- \* Oracle (Full suite of Products both Technical & Functional)
- \* Database Architects
- \* Data Warehouse
- \* Analyst/Developers
- \* Web Development (.NET)
- \* Program Management
- \* Technical Writing
- \* Sarbanes Oxley
- \* Support Engineers
- \* Change Management
- \* ITIL
- \* Six Sigma

Recruiting quality Technical Professionals requires the ability to quantify a person's true depth of experience with a given technology or technologies. Experience has taught us that many times people will overstate their experience within a given skill set. Fusion Staffing takes the time to ask the hard questions necessary to quantify a person's actual level of expertise, so we do not waste your time with unqualified candidates.
