RECRUITING EXCELLENCE

With 75 years of experience Fusion Staffing will work with you to design and implement the most effective strategy to accomplish your staffing goals. We offer a suite of staffing solutions which we will tailor to meet your specific needs. Fusion Staffing will work with you as a partner to provide you with the highest quality professional and technical talent.

THE DIFFERENCE IS CLEAR!

The difference between Fusion Staffing and our competition is simple, the quality of our recruiting. We don't just match skills, we work hard to understand our clients and their corporate culture, presenting people that truly fit into their organizations. Our job is to save you time by presenting candidates that are spot on. Fusion Staffing understands that what makes a company grow from Good to Great is not just people, it is having the **RIGHT PEOPLE!**

Fusion Staffing utilizes proven recruiting methodologies allowing us to spot superior candidates quickly and with a high degree of accuracy. We do not rely on job boards to identify quality candidates; we research industries and markets, attend trade shows, participate in online groups and network with people to cultivate relationships.

Other staffing firms think that papering you with resumes that have key terms from the job description qualifies as recruiting.... **IT DOESN'T!!!**

The old adage "People are your most important asset" **IS WRONG**
People are not your most important asset **THE RIGHT PEOPLE ARE!**
