

Recruiting Base Camp

Recruiters Base Camp (RBC) is an online application we give our clients access to free of charge. We are able to easily and effectively share the information on candidates that we receive in real time. All sourced information that is collected during a search is uploaded into RBC and a notification is automatically sent to those working on the recruiting project.

Having all the information in one secure online spot allows you to access the information from any computer with Internet access. There is not more searching through emails or having to wait till you get into the office to get what you need.

Easy To Use

This tool will afford you easy access to all sourced data specific to your organization hosted on safe, fast, and reliable web servers and all you need is a web browser (IE 6/7, Firefox, or Safari) and an internet connection for 24/7 access. Your account is password protected and safe from prying eyes; features include a simple permissions system that allows you to specify who has visibility to what information when.

Types Of Data Provided

Data is collected in a variety of different file formats and types based on how we acquire the information. All information will be provided in easy to use formats and typically data will be presented as classic resumes, directory lists, excel spreadsheets, PDFs, bios, corporate profiles, power point presentations and web links. Excellent service, saving you time, is what we're about and we handle everything; from the search piece and discovery of the ideal candidate through interview scheduling, background and drug screening right down to a phone call before the first day of work just to give the process that final touch. All the communication of this process is streamlined with Recruiters Basecamp.
